

**BATT-TEC** provides a one step solution to battery terminal corrosion removal and acid neutralization.

**BATT-TEC** delivers a powerful, heavy duty foam that clings to battery surfaces.

**BATT-TEC** provides extended contact time and neutralizes acid quickly.

**BATT-TEC** helps eliminate power leaks and acids in restoring full starting power.

**BATT-TEC** features a low odor, non-flammable, water soluble formula.

**BATT-TEC** leaves behind a residual film that provides short term corrosion resistance.

### **For use on:**

**Fleet Cars / Trucks / Busses / Forklifts / Construction / Agricultural / Marine Equipment / Aircraft / Golf Carts / Postal Vehicles / Industrial Battery Back up Systems.**

**Color Performance Indicator Increases Battery Efficiency**

**Neutralizes exterior battery acid.**

**Provides short term corrosion prevention.**

**Flushes away easily with water.**

**RI-TEC**
